PROFESSIONAL SUMMARY

Full-stack software engineer who led the build and launch of ONSTA, a live AI skin, beauty and wellness app for iOS, Android and web. Works with React, TypeScript, Node.js (Fastify), PostgreSQL, Python, Google Gemini and AWS, shipping fast with AI coding agents and automated tests. Background in mechatronics engineering and IT support.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, C++, Java, Bash

Frontend & Mobile: React, Redux Toolkit, Tailwind CSS, Vite, PWA, Capacitor (iOS & Android), i18n (Arabic RTL)

Backend & Data: Node.js, Fastify, REST APIs, JWT, OAuth (Google, Apple), Prisma, PostgreSQL, Redis, MySQL

AI: Google Gemini API, OpenAI API, LLM integration, prompt engineering, computer vision (MediaPipe), AI chatbots

Cloud & DevOps: AWS (ECS, Aurora, ElastiCache, S3, CloudFront, SES, SNS), Docker, GitHub Actions, Linux, Sentry

Integrations & Testing: Stripe, RevenueCat, Firebase Cloud Messaging, Web Push, Vitest, Playwright, Claude Code

PROFESSIONAL EXPERIENCE

Senior AI Software Engineer | Helcoo AI, Dubai May 2026 - Present

- Led the end-to-end build and launch of ONSTA (onsta.ai), an AI skin, beauty and wellness app live on the App Store, Google Play and the web, in Arabic and English.
- Shipped one React + TypeScript codebase to web (PWA), iOS and Android with Capacitor, using on-device MediaPipe face and hand tracking for hands-free guided photo capture.
- Built the backend with Node.js (Fastify) and PostgreSQL (Prisma): 250+ API endpoints, 55 data models, Redis, JWT with Google and Apple sign-in, Stripe and RevenueCat subscriptions, and push notifications.
- Integrated Google Gemini through a Python analysis service for face, hand-and-nail and body reports, plus AI age checks, AI-generated avatars and voice dictation.
- Deployed on AWS (ECS Fargate, Aurora PostgreSQL, ElastiCache, S3/CloudFront, SES, SNS) with Docker and GitHub Actions CI/CD, health-checked releases, a rollback workflow and Sentry monitoring.
- Built a bilingual admin dashboard for KPIs, AI-scan failures and costs, subscriptions, a user map with push campaigns, live support and an audit log.
- Used AI coding agents (Claude Code) to ship faster, backed by 6,500+ automated tests (Vitest, Playwright).

Freelance Software Developer | Self-Employed, Syria / Dubai Jul 2021 - Present

- Built custom web and mobile applications for clients, integrating LLMs, AI agents and automated workflows.
- Built AI chatbots and natural-language interfaces tailored to each client's operations across several industries.
- Managed delivery end to end, from client discovery to deployment and maintenance.

IT Support Lead / Head Technician | Crypto Miners AE, Dubai Jul 2024 - Apr 2026

- Kept infrastructure, networks and systems stable for mission-critical operations, minimizing downtime.
- Oversaw access control, surveillance systems, hardware diagnostics and complex technical escalations.

EDUCATION

Bachelor of Information Technology | Syrian Virtual University (SVU) | In progress

Mechatronics Engineering | Tishreen University, Latakia, Syria | 2018 - 2024
Coursework completed; degree not completed

ADDITIONAL INFORMATION

Languages: Arabic (native), English (professional working proficiency)

Award: Employee of the Year, Al-Fouad Money Transfer
